

Colloquium

Soil – Water – Rock

Summer Term 2015

Thursday, 4.30 p.m., Albertstr. 23 B, HS 1

21.05.2015	Steffen Praetorius (Herrenknecht AG) Geotechnical key data for utility tunnelling
11.06.2015	Flavio Anselmetti (Universität Bern) 600'000 years of climate, and earthquake and volcano history in Eastern Anatolia: the Lake Van sediment record
18.06.2015	Frank Schäfer (EMI Freiburg) Mitigation strategies for geohazards resulting from celestial bodies – experimental investigation of asteroid deflection by impact (Antrittsvorlesung mit anschließendem Empfang)
25.06.2015	Jan Seibert (University Zürich, Switzerland) Spatial patterns of soil- and groundwater: topographic controls and qualitative observations
02.07.2015	Jan-Hendrik May (Universität Freiburg) Tales from the Australian outback: soils, sediments and hydrological changes
09.07.2015	Matthias Huss (University Fribourg, Switzerland) Modelling the future hydrological response of glaciers at the global scale
16.07.2015	Kai Schwärzel (United Nations University, Dresden) Soil water dynamics at the Loess Plateau, China
23.07.2015	Olaf Cirpka (University of Tübingen) The joys and pains of stream-tracer tests
