

Colloquium

# Soil – Water – Rock

---

Summer Term 2015

Thursday, 4.30 p.m., Albertstr. 23 B, HS 1

21.05.2015	<b>Steffen Praetorius</b> (Herrenknecht AG) Geotechnical key data for utility tunnelling
11.06.2015	<b>Flavio Anselmetti</b> (Universität Bern) 600'000 years of climate, and earthquake and volcano history in Eastern Anatolia: the Lake Van sediment record
18.06.2015	<b>Frank Schäfer</b> (EMI Freiburg) Mitigation strategies for geohazards resulting from celestial bodies – experimental investigation of asteroid deflection by impact (Antrittsvorlesung mit anschließendem Empfang)
25.06.2015	<b>Jan Seibert</b> (University Zürich, Switzerland) Spatial patterns of soil- and groundwater: topographic controls and qualitative observations
02.07.2015	<b>Jan-Hendrik May</b> (Universität Freiburg) Tales from the Australian outback: soils, sediments and hydrological changes
09.07.2015	<b>Matthias Huss</b> (University Fribourg, Switzerland) Modelling the future hydrological response of glaciers at the global scale
16.07.2015	<b>Kai Schwärzel</b> (United Nations University, Dresden) Soil water dynamics at the Loess Plateau, China
23.07.2015	<b>Olaf Cirpka</b> (University of Tübingen) The joys and pains of stream-tracer tests
